

Serve the Church that the Church May Serve You.

CENTRAL UNITED CHURCH
BLAIRMORE
Rev. E. B. Arrol, B.A., Minister

Services Sunday next:
11 a.m., Combined Sunday Schools.
7:30 p.m., Public Worship.

SALVATION ARMY, COLEMAN
Lieuts. R. D. Marks and S. Nahrney,
Officers in charge.

Sunday services (in the I.O.O.F. hall, temporarily)—

11:00 a.m., H-ness Meeting.
8:00 p.m., Sunday School.
7:30 p.m., Salvation Meeting.
Tuesday, 7:30 p.m., Red Shield Auxiliary and Home League.
Thursday, 8 p.m., Praise Meeting.
Fridays, at 6 p.m., Boys' Club.
BLAIRMORE Gospel meeting every Friday at 8 p.m.
Funerals and dedications on application to the local officer.

COWLEY HAPPENINGS

Much needed showers of rain fell over this district on Wednesday and Thursday.

Mrs. Warriner and daughter Patty, of Hillcrest, are spending several weeks visiting Mr. and Mrs. Michael Elton.

A miscellaneous bridal shower in honor of Miss Jean Diamond was held at the home of Mr. and Mrs. T. E. Murphy on Wednesday evening.

Mr. and Mrs. Hector Lemire attended the wedding of Hector's youngest brother, Paul, at Macleod.

The Cowley United Sunday school, and that of Olin Creek, held a joint picnic at Olin Creek on Sunday afternoon.

Mr. and Mrs. Kenneth Martin and Mr. and Mrs. Alvin Murphy were Thursday visitors to Blairmore.

On their way to take up residence in Corbin, B.C., (the old mining camp that is re-opened) L. Martin and family, of Black Diamond, stopped over to visit his brother, Kenneth Martin, and family here.

Griffith Perry was a Calgary visitor for a few days this week. His wife, who had been attending summer school, returned with him.

Mrs. T. G. McKivror and family, who have resided on the old W. G. Buchanan place for a few years, recently moved to Macleod to join her husband who is employed at the air training school.

Mrs. C. Dambols and four daughters, of Bellevue, are visiting Mr. and Mrs. H. C. Morrison.

A miscellaneous bridal shower was held in the Masonic hall on Friday evening for Mrs. Alcock (nee Miss Jean Porter). Entertainment took the form of whist for the early part of the evening, with honors going to Mrs. Louis Bonartz, Mrs. Robert Littleton, L. A. Feller and Stanley Snyder. Floris Lemire was master of ceremonies. The presentation speech was made by H. C. Morrison, which was neatly replied to by the bride. After an appetizing luncheon, a lively dance was enjoyed for a few hours. A large crowd was in attendance to do the honor guest homage.

According to the old gag: If a doctor makes a mistake, he buries it; if a lawyer makes one, he collects more fees for the appeal; if a judge makes one, he eventually becomes a precedent; if a clergyman makes one, he doesn't find out until he's in the next world. But let a printer make one—ye gods!

MRS. C. D'ESTEFAÑO PASSES

The death of Mrs. Catherine D'Este-fano, of north of Burnside, occurred at the home of one of her daughters, Mrs. A. Pagano, in Blairmore, on Wednesday, following a brief illness. Mrs. Este-fano was in her 70th year and is survived by several sons and daughters, the daughters including Mrs. L. Fungagalli, of Hillcrest, and Mrs. Semensin and Mrs. Pignucco here. Funeral services have been arranged by the Crows' Nest Funeral Home, with interment to take place in the Hillcrest cemetery tomorrow forenoon.

FATHER AND SON DROWN IN LEE LAKE

The remains of Steve Fargo, 43, and his son Steve, 6, who were drowned at Lee Lake on Sunday afternoon last through the upsetting of a canoe, were laid to rest at Hillcrest on Wednesday and Thursday afternoons, respectively. George Kovach and Mrs. S. Gurie, also in the canoe, were rescued. Fargo's body was recovered shortly after the accident, but the boy's body was not located till Tuesday evening. Mr. Fargo was a long-time resident of Hillcrest, and of late had been employed at the Blairmore mine. He is survived by his wife and a son in the army. Mrs. Gurie was rescued by a Doughboy lad from Cowley, who had been bathing a short distance from where the accident occurred.

BOLD COURAGE IN FRANCE

In spite of barbarisms and hardships imposed by the Vichy regime and Nazi threats, the resistance of the people of France continues to thrive. At risk of their lives and livelihoods, held with courage, defiance, death and with faith in future liberation, they daily perform even the little tasks of defiance, in addition to such stupendous ones as sabotage.

In a recent London broadcast to the people of France, General Giraud paid tribute to General de Gaulle as being the first to rally French resistance. Many stories of such resistance in the homeland are touched with spirited bravery, patriotism and pathos, mixed, too, with humor.

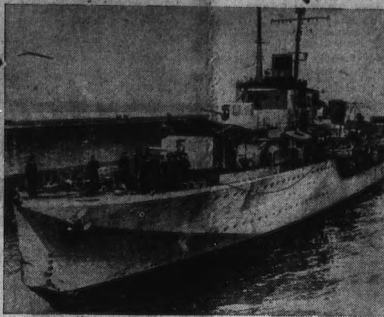

It has been reported that in France today the butcher, baker or grocer is inclined to be just a little more generous in doling out rations of beef, bread or food to a French family honored by a son or sons in the Fighting French forces, while members of the family quietly and with cunning seize every opportunity to defy and resist the enemy.

A Social Credit M.E.A. is credited with saying that "Money is not real. Money is imaginary." That \$25 a month was imaginary, anyway.—Lethbridge Herald.

One village store never seemed to have any loafers hanging around its vicinity. The summer visitor was about to ask about this unusual situation when he noticed a sign which announced the proprietor as an agent of an insurance company.

The Liberal government in Ontario has been defeated, with the Progressive-Conservative party leading by a small majority. Harry C. Nixon, who has been Liberal leader, promises to resign as premier and leader. The new premier is likely to be Lieutenant-Colonel George A. Drew.

Only printed and readable publications are recognized by the Canadian daily and weekly newspapers associations, and despoiling of local, provincial and federal advertising. Minor sheets are not to be recognized as news mediums. Of course, very few of the low-downs are remaining to be out-of-date in this Canada of ours. They have been discarded everywhere else.

DESTRUCTION OF U-BOAT BY BRITISH DESTROYERS "HESPERUS" AND "VANESSA"

While forming part of a homeward-bound convoy escort the British destroyers "Hesperus" and "Vanessa" rammed and sank a German U-boat. The enemy was first sighted and rammed by HMS Vanessa. Though badly damaged it tried to escape in falling light, but was overhauled and finished off by HMS Hesperus, which rammed it for the second time, broke it in two and sank it. Survivors were picked up. Picture shows HMS Hesperus entering harbor. Note the damage to her bows caused by ramming the U-boat.

Close to 2,500 persons attended the recent Castle River Stampede.

Mrs. C. Hughson has been visiting with her parents, Mr. and Mrs. Robert Hays, at Burnaby, B.C.

The slaughtering of lambs weighing less than 75 pounds and hoglets less than 100 pounds has been banned.

In place of the present swimming pool, Fernie is looking forward to an improvement by way of a pool in the central park.

Money doesn't always bring happiness. A man with ten million dollars is no happier than a man with nine million dollars.

Miss Emma Kidd, Mrs. James Stewart and Mrs. D. Walker are among the local folks who are holidaying at the Pacific coast.

That Sunday shooting should be legalized is the opinion of executive members of the EID Fish and Game Association at Brooks.

Jackie Patterson is spending his school holiday in employment at the local mine. For a number of years he has been The Enterprise newsy, and has turned over his route to Buddy Slopek.

At a special meeting of the Blairmore Lodge of Elks on Tuesday evening it was decided to hold the annual carnival on the nights of Saturday and Sunday, August 28 and 30. Tickets for major prizes will be on sale shortly. The Elks have a big charitable work to perform and funds are necessary.

Mr. and Mrs. B. Saunders were visitors to Lethbridge over the week end.

Harold McPhail, of the local post office staff, returned to his post Monday after a brief vacation.

Drumheller and Rocky Mountain House districts experienced severe hailstorms the early part of the week.

Private Doris Van Maaron, who is with the CWAC's at Vancouver, has been visiting her parents in Coleman.

The weights in several local grandfathers' clocks became so light in the terrible heat of Monday and Tuesday that the time ran considerably slow.

Mary walked up to the bank teller's window and said: "I would like to buy some traveller's cheques." The clerk asked: "What denomination, please?" and Mary replied: "Methodist."

Phan Spook, of Chapman Camp, claims that since the Italians tussled Mussolini, the Allies shouldn't have much trouble in bagging that Badoglio.

Miss Birkett, of Red Deer, attended the funeral of her brother-in-law, T. M. Roberts, at Cranbrook last week; also in attendance were Mr. and Mrs. H. L. Greene, of High River.

A member of the Ottawa Journal staff has quit journalism to go farming. One of those fellows, no doubt, who said on his registration papers that he could milk a cow. If he can't, he's due to learn that a cow doesn't have to be near dead to kick the bucket.—Ex.

MOTHER OF MRS. L. L. MORGAN PASSES AT PINCHER CREEK

The death occurred at Pincher Creek at an early hour on Monday of Mrs. Henry Marquis, 69, one of the earliest residents of that district.

Born at St. Basil, New Brunswick, she came west with her husband and family 42 years ago, and has resided in Pincher Creek since that time. She is survived by her husband, one brother and three sisters, all of Pincher Creek and Macleod; also four daughters, Mrs. L. L. Morgan, Blairmore; Mrs. R. C. Duthie, Calgary; Mrs. C. Kelly, Pincher Creek, and Mrs. F. Corrigan, and one son, Emilie, of Spokane. She was predeceased by a son Gerard, lost in the first great war.

Funeral mass was celebrated at St. Michael's church, Pincher Creek, on Thursday forenoon, with Rev. Father Panhaux, of Pincher Creek, and Dean M. A. Harrington, of Blairmore, in charge.

COAL SHORTAGE SERIOUS

The coal shortage facing Canada today has assumed such alarming proportions that the Prime Minister has proclaimed the situation a national emergency.

Abnormal demands for coal caused by shortages of fuel oil, wood, natural gas and other fuels, have brought about a widening gap between consumption and production, which can be met in the main only by the most rigid conservation measures.

Little Mikey Milvain had a narrow escape from drowning when he fell in an outside cistern near his grandparents' home in Cowley, Mr. and Mrs. Harry Gunn.

Rev. Dr. J. W. Melvin, former pastor of Wesley United church at Lethbridge, is now pastor of Henderson Jubilee church at New Westminster, British Columbia.

Pincher Creek is reported 325 per cent over the top in the war stamps campaign. The depth charges which this money will buy are designated for HMCS Blairmore.

The Alberta School of Agriculture and Home Economics will open for the 1943-44 term at Olds on October 12. The school at Vermilion has been closed for the duration.

Among those attending the funeral of the late T. M. Roberts at Cranbrook last week were E. K. Stewart and Richard Large from Fernie, and Archie Corrie from Michel.

The carnival recently held by Coleman Elks was pronounced a real success. The two major prizes went to Jack Derbyshire, of Coleman (a.m.n.r. star), and Mrs. Anne Zoratti, Beaver Mines (bedroom suite).

Pincher Creek district's population took a jump during the week, when an influx of 21 new families landed from Oklahoma. They are the families of men who are making a survey of certain oil fields in that district.

Mr. and Mrs. J. H. Boulton, of Coleman, have received word that their son Foss is a prisoner of war in Germany, unfortunately wounded. The news causes more than one sigh of relief. Foss has been a very active squadron leader out of England.

The following ad recently appeared in the Edmonton Journal: "WANTED by American couple with two small children, four or five-room furnished house or suite. Will pay good price. If you don't like children, we will gladly drown them. Phone 84742."

For unlawfully detaching coupons from a gasoline ration book, D. Boehmer, of Blairmore, was sentenced to two months at hard labor in the Lethbridge provincial jail; while A. Stuba, of Bellevue, was fined \$25 and costs for being in unlawful possession of detached ration coupons.

AS THE SELECTIVE SERVICE REGULATIONS AFFECT TEACHERS

The general intention of selective service regulations as applying to teachers is, according to Manager Lote, of the local district Employment and Selective Service office, to retain teachers at their profession during the school year, and to make the best possible use of their services during vacation. Mr. Lote feels that there might be some misunderstanding among teachers as to their status in this way.

By Order-in-Council of June 17 last, teachers were brought under selective service. Previously they had been exempt in so far as employment at their profession is concerned, but now a teacher must continue at the teaching profession during the school year, and can only leave to take other full-time employment, except in the agricultural industry, under permit from Selective Service.

It is not the intention to authorize teachers to leave the profession, where their services as teachers are needed. They may still join the armed forces without permit, or may engage at part-time employment during the school year, so long as it does not interfere with their teaching hours.

During vacation teachers are encouraged to take other high priority work, but generally speaking and apart from employment in agriculture, they must secure permits before entering employment. They do not require permits to engage at work in their own profession. A teacher is defined as any person who teaches or instructs in a school, college or university not carried on for gain.

THREE BEAUTIFUL THINGS

John Masfield, the celebrated English poet, once wrote that he thought the three most beautiful things in the world were: a mother with a babe at her breast, a full rigged ship at sea, and a waving field of wheat.

Most people, I believe, would agree with this, excepting that while sailors would place a full rigged ship at sea in the second place as John Masfield has done, most farmers who have an eye for the beauties of Nature—and who has not?—would be inclined to favor a waving field of wheat as the second most beautiful thing in the world, for surely there is nothing that brings more pleasure to the eye and to the emotions of a farmer than a field of wheat, healthy, strong, and true to variety, giving the promise of a good crop of grain, the fruition of his hopes, his careful work and his skilful planning.

This year farmers can find an added pleasure in regarding with proud eyes their fields of wheat. It is that the wheat, in the form of man's finest food—bread—will give life and energy to the members of the fighting forces overseas, and will eventually help to provide food for the stricken people of a hungry world.

Hay at the rate of about twelve large truck loads per day, including Sundays, has been arriving in The Pass during the past two or three weeks. Owing to wire shortage, baling has had to be practically abandoned for this season.

YOU TOO CAN SERVE—BY SAVING!

GROWN IN SUNNY, SOUTHERN ONTARIO

Co-operation In The Empire

IN CANADA AND IN ALL PARTS of the Empire there have been many changes in the standard of living since the beginning of the war. Curtailment of shipping space, the loss of many of our sources of raw materials, and other wartime conditions have greatly affected our way of life, and the variety of goods available to us has changed greatly in the past four years. These changes have been in general cheerfully accepted as a wartime necessity, and in some cases it has been found that the war has brought about. It is likely that some of the changes which have been effected at this time will be continued after the war and that we will profit in many ways by the effort which has been made, to provide adequately for the needs of the people from the greatly restricted nature of the supplies now available. The evil effects of war are many, but out of this war there will also come some lasting advantages to the people in the form of improved knowledge of nutrition, public health and kindred subjects, and in the lessons learned in the value of co-operation between friendly nations.

Ties of Empire Grow Stronger

Within the Empire much has been learned during the difficult years of the war and a closer relationship and an increased spirit of co-operation has developed. A great effort has been made to make use of all our raw materials, to take the place of those now in the hands of the enemy, and in some cases the results have been remarkable. In the British Colonies, many of them too small to make a marked contribution to the armed forces of the Empire, there has been a great development of the production of raw materials and food stuffs to help the cause of Britain and her Allies. In Ceylon the output of rubber has been greatly increased and there has also been an increase in the supply from East and West Africa. Rubber production is also being expanded in the British Honduras, British Guiana and Trinidad. From Trinidad also comes the Empire's principal supply of petroleum, and from British Guiana comes almost all the bauxite for the Empire's aluminum production.

Colonies Help To Feed Army

Food production has also been stimulated in the colonies, and the British armies in the Middle East have received large quantities of wheat, maize, tinned meat and dried vegetables from the East. Kenya Colony was a pioneer in the dehydrating of vegetables and was supplying them to the forces before this method of conservation was generally used in other countries. Tea and sugar production has been stepped up considerably in the colonies, and these products are playing an important part in fulfilling the Empire's wartime needs. In regard to all this, the British Ministry of Information points out that: "This speeding up of colonial production is a short-term war necessity. But beyond it lies the long-term plan which looks ahead to the future and aims at bringing about increased prosperity and welfare among the colonial peoples." There can be no doubt but that the stimulus given to the development of food production and natural resources in these colonies will be of lasting benefit to them and to the Empire generally.

Fast Air Service

Canada's Stands To Benefit Greatly From Post-War Development

Clement Attlee, Dominions Secretary, said in an address that thanks to war-time built airfields, Canada can expect the development of rapid air transport to begin within a short time after the war.

He said a country of great distances like Canada, where time spent in transport and travel on the ground is an appreciable factor in administration and commerce, stands to benefit more than others from such a development.

Attlee predicted that the Alaska Highway will well become one of the main arterial lines of world traffic.

STOP the ITCH

Of Insect Bites—Headaches—Itching—Eczema—All sorts of skin troubles, such as itching, redness, swelling, etc., are quickly relieved by the use of this tissue. It is the most effective and most economical remedy for all skin troubles. It is the only tissue that is so effective and so economical. It is the only tissue that is so effective and so economical. It is the only tissue that is so effective and so economical.

SMILE AWHILE

Bride: "I have a confession to make, dear. I can't cook."

Groom: "Don't let that worry you. I write poetry for a living. There won't be anything to cook."

Joe: "My wife says that if I don't give up golf she'll leave me."

Moe: "Hard luck, I'd say."

Joe: "Yes, I'll miss her."

Friend: "Did you fish with fish?"

Returning Camper: "Fish with them? We fished with them, camped with them, ate with them and slept with them."

Customer: "My goodness, eggs are high!"

Grocer: "Sure, part of the war program."

Customer: "How?"

Grocer: "All the hens are making shells."

Mistress: "This food tastes terrible. Did you salt it?"

New Cook: "Yes'm, but I never used that brand before. It was called Epsom salts."

Wife: "Marie, don't you think my husband is a dweeb?"

Marie: "Oh, madame, he has very amusing in so dark!"

But surely you did not tell him straight out that you love him?"

"No fear, he had to squeeze it out of me."

Judge: "It seems to me I've seen you before."

Prisoness: "You have, your honor. I gave your daughter singing lessons."

Judge: "Thirty years!"

Father: "I don't like your school report at all, my boy. It's a disgrace."

Small Son: "Well, I told the teacher you'd be annoyed, but he wouldn't alter it."

American industry was well-equipped to cope with her own huge war requirements largely because of the vast British orders which had built it up before Pearl Harbour. 2597

Miraculous Escape

How An Aviator Landed Safely From Burning Plane

Quite extraordinary things have happened in this war. An officer who is now a wing commander baled out from a burning fighter at 25,000 feet, during the Battle of Britain.

He was on fire, and realized that he would be slowly burned to death long before the some 16 minutes it would take him to reach the ground had elapsed. So he decided to open the quick-release and crash to death.

Fortunately for him he had put his harness on wrong. Falling out of it put the fire out and he dangled head-downwards by one buckle, not daring to move a muscle. Nor, miraculously, did he break his neck on landing—London Sunday Dispatch.

HEALTH LEAGUE OF CANADA

OTHER USES OF SOY BEANS

You will remember in a recent article we said that edible varieties of soy beans are high in protein, fat, thiamin, riboflavin, iron and phosphorus. They are the least expensive source of good quality plant protein so we should try to find other ways of using them in our diets. They can be used in many forms, as a green vegetable, dried, or in milk form. The latter is used extensively in the Orient for infant feeding.

It has been found that a child that cannot tolerate cow's milk may be able to tolerate soy bean milk. Soy bean oil can be used for food but is used chiefly for technical purposes. There is a soy bean and peanut butter that is delicious on bread and can be bought at your grocer's.

You can now obtain soy bean flour in grocery stores. Soy bean flour is prepared either by grinding the whole bean or the part left after removal of the oil. You can use it to take the place of part of the wheat flour in baking. Usually 1/4 cup of wheat flour is used, but for pastry it is used in 1/2 cup. Soy bean flour is very nutritious and has an unusual nut-like flavour and a very fine texture. The flavour deteriorates on standing (after baking) so you should eat the muffins while they are fresh. Here is a recipe you will enjoy:

Soy Bean Muffins

- 1 cup soy bean flour
- 1 cup white flour
- 3/4 tsp. baking powder
- 1/2 tsp. salt
- 1/2 cup sugar
- 1 cup milk
- 1 egg
- 2 tbsp. butter or shortening (melted)

Mix and sift dry ingredients, add milk and egg, then melted butter. Bake in greased muffin tins 25 minutes.

Fresh green soy beans of the edible variety may be used in the menu. They are cooked like fresh peas and beans, until they are tender, requiring a little longer cooking time.

Winter Wheat

THE VICTORY GARDEN

Spraying and dusting to destroy pests in the Victory garden is a relatively simple matter, due chiefly to the restricted size of the plot. Amateur gardeners in their first year of gardening, should remember that sprays adhere to the foliage better than dusts, but are slower to apply and more troublesome to prepare.

In general, spraying will give better and more lasting results than dusting, but either method, if properly followed, will prove effective. Both the upper and lower surfaces of the leaves should be covered. Be liberal with materials and, if possible, make the applications on a warm, calm day. Nicotine sulphate, in either spray or dust form, should be applied only when the temperature reaches 70 degrees Fahrenheit, or higher.

A small sprayer of the plunger type, holding about a quart of spray, will be found suitable, but a bucket pump or small compressed air sprayer will cover the ground more rapidly. Dust can be applied quite effectively through a cheesecloth or burlap bag. For most insects, Victory gardeners should repeat applications at weekly intervals until the outbreak is checked.

FEMININE INFLUENCE

There's lipstick on the drinking fountain.

There's talcum on the bench.

There's dried cream on the surface plate.

Hand lotion on the wrench.

And "Evening in Paris" scents the air.

That once held hube oil's smell. I just picked up a bolt pin; Believe me! War is hell!

—Pure Oil News

Out of the thousands of ships conveyed by the Royal Navy, less than one out of 200 has been lost. The Royal Navy, has sunk or captured more than 8,000,000 tons of enemy merchant shipping.

The Third Reich

Germany Has Had Three Systems of Government Since 1871

"Reich" is a German word signifying kingdom, empire, state or commonwealth and is believed by teymologists to be related in origin to English "realm", which is traceable to Latin "regere", to rule or keep straight. The verb "reichen" in German means to reach. During the days of the German Empire it became customary to speak of the empire as the reich to distinguish it from the kingdoms, provinces, confederacies and other political units composing it. In this sense the term acquired a peculiar meaning among Germans, and after the abdication of Wilhelm III in 1918 many Junkers insisted that there could be no German Reich without a German emperor, but the name survived and it is still correct to speak of the chancellor of the German Reich. First, Second and Third Reich are applied to the three successive systems of government in Germany since 1871. The empire was the First Reich, the postwar republic under Presidents Ebert and Hindenburg was the Second Reich and the National Socialist regime under Hitler is the Third Reich. — Cleveland Plain Dealer.

A SHORT STORY

In Utah, Mass., Sumner D. Hersey's family ate no meat for three weeks, saved the points for a birthday roast-beef dinner. Just before the 7-31 war was carved, Sumner Hersey's setter ate it.

CANADA'S OFFICIAL FOOD RULES

CRISPELY and TENDER—One serving of a whole animal meat and 4 to 6 ounces of Canada Approved Bread.

MILK—Adults—16 pints. Children—12 pints. And some CHEESE, as available.

FRUIT—One serving of tomatoes, fruit or a citrus fruit, or of canned or frozen fruit, canned or dried.

VEGETABLES—One addition to portion of whole animal meat serving daily—Two servings daily of vegetables—One serving of potatoes or other starchy food, and frequently meat, fish, or meat substitutes. Liver, least or 1000—At least 3 or 4 eggs weekly.

But these foods first, then add other foods as you wish.

Some sources of Vitamin D such as fish liver oil, is needed for children, and may be advisable for adults.

Nightmare Of Second Front Faces Hitler

LONDON.—Adolf Hitler's nightmare—and the nightmare of the German Supreme Command since the First Great War—of a two-front war has been brought to the verge of fruition by the fall of Mussolini.

It now is plain that Hitler has been confronted with the greatest military crisis of his intuitive career by the necessity within, probably a few weeks or less of taking over full responsibility for defence of the Italian peninsula, at the same moment that the whole Eastern Front is erupting into battle after battle.

Evidence is piling up that the Germans were caught short by Mussolini's ouster. The evidence was provided by the Nazi propaganda machine itself which after hours of silence gave the public only the bare facts of the Italian communique.

Where Hitler is going to get the troops is the big problem. If he pulled 100 divisions from the Eastern Front, there is little question that the front would come in.

Another possibility is the scraping together of divisions from the occupied countries, but if an estimated 10 divisions moved from Norway and 30 to 40 from France it would expose their coasts to creation of a third Allied front.

It is noted that the war situation has more and more been taking on the appearance of 1918. Germany's collapse then was heralded by the knockout of Turkey from the war, quickly followed by Bulgaria, Austria and Hungary.

USE NEW SIGNAL

Change Made By Italian Radio Stations After Mussolini's Downfall

NEW YORK.—Radio stations of the official Italian news agency, Stefani, returned to the air short of their idling signal of "Vincere"—Conquer.

In its place the stations returned to the internationally accepted practice of sending out the letter "V" in code when idling.

All Italian stations, including commercial ones, used the "Vincere" signal before Mussolini's downfall. The new signal was heard in broadcasts recorded by the Associated Press.

INSIST ON SHARE

Gen. De Gaulle Says France Must Participate In Settlement

NEW YORK.—Gen. Charles de Gaulle, in a broadcast over the Algiers radio, said that no settlement with Italy could be made without the participation of France, the United States foreign broadcast intelligence service reported.

His broadcast had been preceded by an announcement that an important statement soon would be heard.

It was added that the French Committee of National Liberation, of which Gen. de Gaulle is president, Gen. Henri Giraud, met in a plenary session.

CONSIDERING PLAN

Wheat Board May Have Monopoly Of Handling Feed Grain

OTTAWA.—Trade Minister MacKinnon said proposals for granting the Canadian wheat board a monopoly of handling oats and barley to make sure there would be no hold-up of supplies of western feed grain to eastern Canadian farmers are receiving "serious attention" from the cabinet wheat committee but no decision has been reached.

He said the cabinet wheat committee was watching the situation "very closely."

A SEA MYSTERY

Royal Navy Finds Invasion Barge In Atlantic Without Crew

LONDON.—An invasion barge loaded with Lockheed Interceptor planes found bobbing around without a crew in mid-Atlantic provided the Royal navy with a mystery.

The barge was superficially damaged on the nose and had apparently been struck by flying debris, but it was still seaworthy enough to be towed to the Belfast docks. Several empty lifeboats were found near the barge.

The Aid-to-China Fund in Great Britain had reached nearly \$3,000,000 by the end of May.

Leads Canadians

Major-General Guy Simonds, youngest major-general in the Canadian army, is leader of the Canadian forces in Sicily. He was born in 1903.

Germany Was Shaken By Fall Of Mussolini

STOCKHOLM, Sweden.—The fall of Mussolini shook the German people more than any other event of the war, reports direct from Berlin said, and statements cleared by Nazi censorship indicated Germany already is resigned to the loss of her southern ally.

News despatches to Sweden said Berliners, made apathetic by years of unreliable information in their press, besieged stands for newspapers announcing the change in the Italian government.

The correspondent of the Social-Demokraten said German friends ran to him "with indescribable expressions" crying out in wonderment, "What do you believe?" The reaction, the Aftonbladet Berlin correspondent said, was like that of a man who declared "with moving seriousness, 'So it has gone that far'."

"It is not concealed that developments in Italy can directly affect the entire German position," the Berlin representative of the Svenska Dagbladet wrote.

All reports stressed that the fall of the Fascist dictator, whom Germans had been taught to believe represented Italy as much as Hitler represents Germany, was a complete surprise even to Hitler himself. Der Fuehrer had no idea of the possibility at his recent meeting with Mussolini, the Aftonbladet said.

But the German official line was that one could not yet judge the cause and effect of the situation.

(A German Transocean News agency despatch from Madrid said the Italian developments "made a 'profound impression' in Spain, and that Spanish police were keeping close watch over minor opposition groups, including monarchists.)

It was obvious from Berlin despatches that nothing had affected Germans so much since the flight of Rudolf Hess to Scotland.

A German press campaign against "rumor-mongering" indicated the people reacted just as they did when Hess fled—they rushed to radios and defied the government by listening to Anglo-American news.

(Exchange Telegraph reported in a Zurich despatch that the Nazi propaganda minister had instructed newspapers in Germany to discount references to unity between German and Italian battle ideals and aims, to delete comparisons of ideology between the countries and to emphasize Italian assurances the nation would stay in the war.)

TRAFFIC HEAVY

Swedish Government Air Line Is In Need Of New Equipment

WINNIPEG.—Despite the hazards of war, airline traffic between Sweden and Great Britain is so heavy the Swedish government air line is looking for new equipment so its service can be amplified, Karl H. Larson, chief engineer, revealed here. He is here to study operations and maintenance procedure of Trans-Canada Airlines.

NOW IN GREECE

The Whereabouts Of Field Marshal Rommel Disclosed By Berlin Radio
LONDON.—The German radio said that the "secret surrounding Field Marshal Erwin Rommel's whereabouts has been ended" through the publication in Berlin morning papers of pictures showing the former North African commander arriving in Salonika, Greece.

Greece is at the gateway to the German-held Balkans, largely garrisoned by Italian troops, and an Allied invasion through Salonika in the First Great War led to the defeat of Germany.

A D.N.B. despatch told of Rommel's despatch to Greece which is threatened by Allied armies in the Middle East. Previous reports had said Rommel was in France or Greece, and one recent rumor said he had been shot down while flying to Sicily after the Allied invasion there.

TAKES ACTION

Argentine Government Assumes Supervision Of Eight Foreign Industrial Plants

BUENOS AIRES.—The Argentine government in a decree assumed supervision of eight important industrial establishments including one British and six American-owned plants engaged in the production of farm machinery, automobiles and tires.

The decree said action was being taken to investigate charges that the firms violated commercial laws which fix maximum prices and require adequate stocks to be maintained.

General Giraud Visits Ottawa

General Henri Giraud, co-president of the French committee for national liberation and commander-in-chief of the French armies in Africa, is shown here as he stepped from the aircraft which brought him from Detroit to the R.C.A.F. station at Rockcliffe for an official visit to Ottawa. Waiting to welcome the Fighting French leader is Pierre Dupuy, of the department of external affairs.

Rail Girls Help

Girls employed in the Canadian Pacific Railway station in Winnipeg are putting in part-time work selling war savings stamps in the "Stamp Out the U-Boat" campaign, and report that men in uniform are among their best customers. In above photo Betty Thomas, of the vice-president's office, is seen making a sale to Sub-Lieut. Trevor Housner, R.C.N.V.R., of Vancouver.

Navy Medico

Surgeon-Lieut. Margaret Alexander, R.C.N.V.R. of Saskatoon, who has taken up her duties on the medical staff of an eastern Canadian port hospital. A bachelor of science graduate of University of Saskatchewan, she received her medical degree at University of Toronto and interned at Vancouver General and Toronto General hospitals.

Every Facility Used In Getting Mail To North

VANCOUVER.—Co-ordination of mail services to the armed forces and defence project camps in the far north by Canadian Pacific Air Lines, river boats, U.S. army vehicles over the Alaska highway and railway was the object of an extensive northern tour just completed by Canadian and American postal officials.

W. E. Allison, general mail and baggage agent, C.P.R., Montreal, reached Vancouver with the word that Canadians and Americans in the Yukon and Alaska have only one cry: "Mail and more mail." He added, "and we're going to try to give it to them by whatever means lie in our hands."

There has been tremendous increase in mail to northern points in the past two years. Postal authorities in co-ordinating all transportation facilities hope to keep those letters from home flowing smoothly to lonely men in the land of the midnight sun.

The party flew by Canadian Pacific Air Lines from Edmonton to Norman, Wells and back to White Horse, went to Dawson by river boat and came south by air.

Also in the group were: George Herring, chief supervisor air and land mail services, postal department, Ottawa; J. E. Carley, district director, postal services, Calgary; G. H. Clarke, district director, postal services, Vancouver; Thomas Kelly, acting district supervisor of postal services, Edmonton, and Major Walters and Captain Yeaser of the U.S. army postal corps.

FARM MACHINERY

Plans Made To Supply Co-operative Outlets In Prairie Provinces

REGINA.—Arrangements with regard to the supplying of tractors and other lines of co-operative machinery to the various co-operative outlets in the three prairie provinces as soon as raw material is available were concluded after a two-day session in the Hotel Saskatchewan of directors of Canadian Co-operative Implements Ltd.

Dealings of the association with the National Farm Machinery Co-operative at Shelbyville, Ind. formed part of the distribution arrangement. National Farm Machinery Co-operative is owned by the regional co-operative associations of Canada and the United States.

TO LOSE COLONIES

Allies Will Not Return North African Possessions To Italy

LONDON.—Foreign Secretary Eden made it clear that the Allies would not return to Italy all her North African possessions in event of her "honorable capitulation."

The foreign secretary answered "No, sir" when asked in the House of Commons concerning this possibility.

MORE THAN DOUBLED

WINNIPEG.—During the first six months of the current year, air mail carried by Trans-Canada Airlines was more than doubled, as compared with the corresponding period in 1942, more than three times as much express was carried, and the number of passengers increased by more than 17,000.

Food Shortage After War Has Been Predicted

LONDON.—R. S. Hudson, Britain's agriculture minister, outlining for the House of Commons Britain's agricultural program for the next four years, cautioned that "the first two years after the war are bound to be a time of great stringency on the food front."

Opening a debate on agriculture, he warned that the world would be faced immediately after the war with an acute shortage of food, transport, fertilizers, machinery, farm implements and gasoline.

"We must anticipate that agriculture will have to remain fully mobilized after the war for a period more likely of years than of weeks or months," he said. "Taking the world as a whole, there seems no doubt that there will be a very considerable lack of livestock products, oils, fats, even bread, grain and rice."

"Our plan for the next four years must be to maintain the present production of food for direct human consumption, at the same time taking steps to ensure the fertility of our soil is not undermined."

He called for an increase in the quantity of livestock and an improvement on their quality.

A CLEAR MAJORITY

Coalition Government In South Africa Had Little Opposition

PRETORIA.—Field Marshal Smuts' Coalition government has a clear majority in the South African general election, it was shown when counting of votes took place.

Early results indicated a landslide in favor of the veteran South African political leader who was pledged to keep the Dominion in the war at the side of the rest of the empire.

Of 50 seats decided by last night, members of the various parties in Smuts' government had won 54 and the anti-war opposition only two. Smuts himself was re-elected in his constituency of Standerton.

WILL CARRY FILM

Canada's First Lancaster Bomber To Be Flown Overseas Shortly

OTTAWA.—The first Lancaster bomber produced in Canada will shortly be flown overseas. And it will carry as part of its cargo a print of "Train Busters," Canada's newest war movie.

Starting Officer D. M. "Bitty" Grant, D.P.C., of Watrous, and Flying Officer J. A. Morton of Didsbury, Alta. the film shows Canadian airmen in action against enemy locomotives.

After its premiere before Royal Canadian Air Force men in England, Canadian release dates will be announced.

ON PRESENT BASIS

Canadians Cannot Expect Change In Tea And Coffee Ration

OTTAWA.—Rationing of tea and coffee in Canada must be continued on the present basis for "some time to come" because stock piles of those commodities are not sufficient to allow an increase, E. T. Mohan, prices board administrator of tea, coffee and spices, said in a statement.

Mr. Mohan said his statement was issued in view of a "considerable" number of inquiries from the public and the trade which were prompted by the recent announcement that coffee rations in the United States were being increased.

RULING CHANGED

No Limit Now On Wheat Gristed For Family Use

OTTAWA.—Effective Aug. 1, start of the new crop year, wheat producers in the prairie provinces may have an unlimited quantity of wheat gristed for family use outside of their established delivery quotas, Trade Minister MacKinnon announced.

At the start of the current crop year farmers were permitted to have 40 bushels gristed, but the wheat was to be taken from the authorized quota. Then on July 6 Mr. MacKinnon announced the farmers could have 100 bushels gristed outside the quota.

LONDON.—Prime Minister Churchill accepted an honorary fellowship in the Council of the Royal College of Surgeons of England.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Fri., Aug. 6, 1943

Thirty-eight years ago the application of A. G. Trell for two liquor licenses, wholesale and hotel, for Coleman, was turned down by the commission, composed of T. Label, Dave Greer and W. Oliver.

The marriage took place at St. Paul's United Church, Coleman, on Saturday evening last, of Lorraine Katherine, youngest daughter of Mr. and Mrs. Alex. Easton, to Sgt. James S. Adams, RCAF, based at Pearce, only son of Mr. and Mrs. Earl W. Adams, of Calgary.

All vacancies in Fernie junior and senior teaching staffs have been filled by the recent appointment of five new teachers. Douglas Feir, science and mathematics, who obtained leave of absence for the duration, is succeeded by W. B. Doerkson, BA, of Winnipeg, former principal of the Beauséjour school.

Thirty-seven years ago, application was being made to the Legislative Assembly of Alberta for incorporation of the Crows' Nest and Prairie Electric Railway Company, for the purpose of constructing and operating an electric railway from Crows' Nest to Pincher Creek, and necessary branch lines.

Delegates from this district to the U. M. W. of A. convention in Calgary this week include T. A. McCloy, G. Ford, J. L. McNeill and P. Meronick, Coleman; J. Walsh, William Stewart and Jack Dugdale, Bellevue; W. A. Arland, Joe Krosky, John Lloyd and E. Williams, Blairmore; Sidney Hughes, Sam English and Tony Podrasky, Natal.

At the special request of Hon. Humphrey Mitchell, minister of labor, Mayor Elton, of Lethbridge, appeals to every man in South Alberta with any experience at all in coal mining to go to the mines to help increase the output of coal and so avert a fuel crisis next winter which might have very serious effects, not only on the war effort, but on the health of the people. That should be a slight hint to Blairmore's well-known George.

Advertising for a dance east and north of Blairmore, to be held the early part of this week, was not done through the medium of The Enterprise, which covers the entire district. That dance suffered considerably as a consequence. The Enterprise covers the majority of homes and does not beg for your business. Some day certain Pass and Foothills people are going to wake up to such an error. The Enterprise is here to serve you at right prices and readable wares.

We are advised that a mobile recruiting party, representing the interests of the Canadian Women's Army Corps, is to visit Blairmore in the near future. Girls or women between the ages of 18 and 50 years, who are interested in the CWAC work, will have this splendid opportunity to make contact and ascertain information about the work, living accommodation and other matters they may like to know. Watch for further announcements. This is part of a Dominion-wide drive to coincide with the second anniversary of the corps, which date is August 29. The visit to Blairmore and The Pass is one of the nine to be made throughout the province.

And when you throw mud at other people you simply are losing ground yourself.

Douglas Craig, who has been with the Ferry Command, spent a brief tour with his parents, Mr. and Mrs. K. G. Craig, at Macleod. One week previous Douglas was on the west coast of Africa.

Permit holders in British Columbia will be privileged to purchase two cases of beer in the month of August, same as in July, one dozen pints to the case. It is said the liquor ration will be increased after the end of October—probably to permit of supplies for Christmas.

The shores and waters of British Columbia are now entirely prohibited areas for photography. Defense of Canada regulations prohibit private or commercial photography of any part of the shoreline or any vessel plying in coastal or offshore waters, and the carrying of cameras on ships has long been prohibited.

The Calgary Herald's Blairmore correspondent got badly mixed up on August 2nd in reporting on the drowning accident at Lee Lake. According to his version, Lee Lake is 90 miles west of Blairmore, which would be in the neighborhood of Warden, B.C. The man victim's age was given at 63 instead of 43.

On Saturday afternoon last at Red Deer the adjourned hearing of the charge against John Shanks, Nordegg, general manager of the Brazeau Collieries Ltd., under the provincial mines act of failing to see that adequate ventilation was provided in No. 3 mine on October 30, 1941, was disposed of. The hearing opened on September 24, 1942, when Mr. Shanks pleaded not guilty. The case adjourned then and resumed last Saturday, when Mr. Shanks pleaded guilty and was fined \$100 and costs.

Trains leaving for Germany with forced labor are splashed with inscriptions: "We are not volunteers," the truth of which might be observed as workmen are pushed inside trains at the butt of a German gun. Lamp posts, motor cars and buildings are pasted with tricolor stickers inscribed with underground messages. Patriots may die if caught with such stickers, but still the messages continue to appear. At Grenoble a large rayon factory in production for the Germans was burned by French patriots.

Any change that would tend to make the Canadian Legion a political party would prove an irretrievable disaster to the organization and to the cause for which it stands, declared W. Walker, of Canora, president of the Saskatchewan division. "We members of the Legion are individually free to associate ourselves with whatever political group or party we may consider will best advance the general interests of Canada," said Mr. Walker. "But as an organization, devoted primarily to the welfare and well-being of our handicapped comrades and their dependents, we are wholly divorced from politics in any party or partisan sense."

Thirty-eight years ago last June 1, Messrs. Smitheringale and Drumm started publication of The Frank Paper at Frank. The advertising was more readable than is seen in supposed-to-be modern flysheets. In the initial number was to be found the advertisements of A. V. Lang, general merchant; A. P. McDonald, livery stable; Frank Drug Co.; Mike Buckley, celebrated stallion owner; C. W. Grace, barber; S. J. Watson, druggist; J. M. Carter, Frank Dairy; Stuntion Bros., Pincher Creek; P. Burns & Co., meats, etc., stores at Coleman, Frank, Blairmore and Lillie; The Imperial Hotel, R. Steeves, proprietor; The Union Hotel, McDonald-McDonnell, proprietors; Miners' Hotel, Fred Collins, proprietor; Sanitarium Hotel, H. A. Kanouse, proprietor; The Canadian-American Coal Company; The Frank Hotel, A. Manuel, proprietor; The Crystal Dairy, Wolstenholme Bros.; Dr. Thomas O'Hagen, M.D.; Thomas B. Martin, solicitor, and the New Custom Smelter.

COURAGE OF WAAF BALLOON OPERATORS AT A LONDON BALLOON SITE

During the Luftwaffe raid on London on January 17-18, 1943, two British Women's Auxiliary Air Force Balloon Operators carried on with their job, bringing their balloon to required height in spite of the fact that two large explosive bombs fell practically together. One bomb fell about 25 yards and the other 20 yards to the right and left of the winch respectively. The two WAAF Balloon Operators are 18 and 22 years old, ACW Peggy Muncy Beeson (left) and Corporal May Dyson (right).

Two residents of Natal, B.C., were recently placed under arrest as operators of common gaming houses, and before the court were convicted and fined \$15 and costs each. Gambling equipment and money on tables were at the time of raid confiscated.

The Fernie Free Press Office Cat remarks: A reader of this column, who merely signs his initials, suggests an answer to the question: "Why should WPB shorten men's shirts when the tax collector will eventually take the whole thing?"

Carry your registration certificate.

One London waste paper merchant's establishment is equipped to deal with 1,000 tons of waste paper per week. Each 5,000 tons of waste paper salvaged freed one ship to carry vital munitions of war.

Under the "Deaths" column heading in Saturday's Calgary Albertan appeared this one: "LONELY? Get acquainted. Hundreds of members, all ages, many with means, widows with farms and city property, housekeepers, city and country girls. Particulars 10 cents. Ladies free."

An old sailor was relating his experiences of life on a desert island. "Yes," said he, "I was alone and without shelter in a dreadful storm, but I managed to make up a good bed in a cave."

Listener: "How did you make your bed?"

Sailor: "Well, the rain came down in sheets, and after that there was a blanket of fog."

A man and his wife were out walking at Coleman when the man noticed a store bill on the footpath. He picked it up, took a good look at it and turned to his wife: "I'm going to pay this bill, Maggie."

"Whatever do you want to do that for, you soft thing?" she said. "It isn't yours."

"No," he replied, "but there's \$1.50 discount, and I might as well have it as anyone else."

If you don't get everything you think is coming to you, maybe you should be glad.

JUNIOR PARK WARDENS

The arrival of the summer season always brings to most Canadian schoolboys a longing for life out of doors, away from hot classrooms, books and blackboards. They dream of scouting through the woods, riding horseback, discovering wild animals in their native haunts, and all the other interesting things of nature that fill a boy's heart with delight and wonder.

This year an opportunity has been given to a number of lads under sixteen years of age, mostly members of the Boy Scouts Association, to realize some of their fondest dreams. They have been enrolled as junior park wardens in the national parks, and are assisting the regular park wardens in such work as the prevention and detection of forest fires, protection of game and other wild life, supplying information to tourists, and doing whatever other tasks may be required of them for the welfare of the national park in which they are operating.

Some of the older boys accompany regular park wardens on the less arduous patrols and take part in weekend hikes in order to gain a wider experience and knowledge of the park service. Those boys who indicate an aptitude for this type of work are receiving valuable training which should fit them for employment in the regular park warden's service when they become older. In the meantime they are given lectures by appropriate officers on wildlife management, forest and game protection, trail riding, packing, camping, operating radio and fire-fighting equipment, and many other important things that are part of the life and work of a park warden. They are also taught something of the geography (and perhaps the geology) of the park areas, so that they will be able to give accurate and intelligent information to park visitors.

The boys wear a smart uniform complete with red tunic, shirt, green hat and tie, and, of course, their badge of office. In addition the chief junior warden displays a star to indicate his rank and authority. They are at all times specially alert to any attempt by enemy agents to sabotage our forests during wartime.

Junior park wardens are first and foremost conservationists. Even the many of those lads may not have the inclination or aptitude for the life of a park warden as a definite career, they will at least have learned something of the importance of protecting our great national heritage of forest and wild life resources. They also learn the correct names of trees and flowers and birds, and have an opportunity to study the habits of many of the wild creatures in the parks. They not only gain useful experience, but in addition have an enjoyable and exciting adventure—an adventure which will provide a topic of lively and inexhaustible interest to their less fortunate school chums.

Twenty-five years ago the population of the city of Fernie was judged to be well over the 5,000 mark.

Tom Burnett, in association with A. V. Lang, took charge of a new business established by them at Bellevue in June of 1905.

Thirty-eight years ago A. V. Lang, of Frank, played lacrosse at Lethbridge and Medicine Hat. That same year Thomas Plante started erection of a building in Coleman, in which to market some of the products of his farms near Edmonton and Winnipeg. He proposed grinding and selling flour, also feed, hay and vegetables, wholesale and retail.

Herman Linder, senior, father of Herman and Walter Linder, well known radio stars, was accidentally killed on the Linder ranch near Cardston on Friday last when buried beneath a load of hay in a barn loft, sustaining a broken neck. He was in his sixty-first year and came to Canada from Wisconsin, U.S.A., in 1918. He is survived by his wife, two sons and two daughters.

CONNAISSANCE D'OUTRE TOMBE

Le physiologiste rapporte tout à ce qu'il voit orgueilleux des hommes qui croient tout savoir et qui n'admettent pas que quelques choses puissent dépasser leur entendement leur science même leur donne de la présomption ils pensent que la nature ne peut rien avoir de caché pour eux.

Si vous n'êtes pas avenger vous verrez, et si vous n'êtes pas sourd vous entendrez, car bien souvent une voix vous parle qui vous révèle l'existence d'un être en dehors de vous.

Tous nous avons plusieurs existences ceux qui disent le contraire veulent vous maintenir dans l'ignorance ou ils sont eux-mêmes, c'est leur désir.

Les plus grandes vérités peuvent paraître absurde qu'and ont ne regarde que la formes, et que l'on prend l'allégorie pour la réalité (retenez bien ceci). —A. VERGUENNE.

HYMN TO THE INCOME

TAX COLLECTOR

(London Evening Standard)

While waiting in court at the Mansion House to give evidence against income tax defaulters, one of the collectors received a document passed to him by some person unknown. Upon this appeared:

"Take my gold and let it be
Consecrated all to thee.
Take my coat, my shirt, my vest;
You know how to use them best.
Take my goods, take every chattel,
Junior's pram and baby's rattle.
If by then you've not enough,
Take old dame and treat her
rough."

The collector then went into the witness box to prove his cases, but was unable to trace the author of the verse.

FACTS ABOUT BEARS

Up at Banff a story was going the rounds about a she-bear that gave birth to twin cubs, and that one of the cubs was seen to climb a tree shortly after its appearance in the world. Then came forward Tony Laccelles, nature writer, who said that while it was too bad to spoil a good story, that truth must prevail. According to him, no bear on earth can climb a tree; neither are bears born in the summer. As a matter of fact, bears, both grizzly and black, are born in midwinter while the mother is dened and asleep. Furthermore, at the time of birth, bear cubs are only about nine inches in length, weigh no more than a fat squirrel and are as helpless and naked as a tile. What is more, they are blind until they are 40 days old and cannot move about until two and sometimes three months have passed, when they measure about 12 inches long and tip the scales at about two pounds. As a general rule there is a lapse of four months between birth and the time the cubs leave the den, in which the early days of infancy are entirely spent.—F.J.S. in Cranbrook Courier.

After all, girls, you only get out of a sweater what you put into it.

Dogberries and partridge berries grown on Blaimore's boulevard this season are to be offered to the market at \$7.50 per gallon. Other fruit, including smelts, ling cod and frogs, will be given away.

Pete the painter pronounced his blessing on the A. Brunette store-residence last week. Pete has made many a business face look resplendent of late, including those of the F. M. Thompson Co., the Union Meat Market and Krivsky's meat store and residence.

The biggest fish story in the Crown's Nest Pass in the season of 1905 was related by Mr. Steeves, proprietor of the Imperial hotel at Frank. Steeves and A. V. Lang went out to Fish Lake, where they did not trouble to fish with hooks, but one of them waded into the lake and drove the fish into a small outlet, only two feet wide. They both simply scooped them up by hand.

O. D. Steed has been appointed secretary-treasurer of the town of Cardston. He is also chairman of the Lions Club publicity committee.

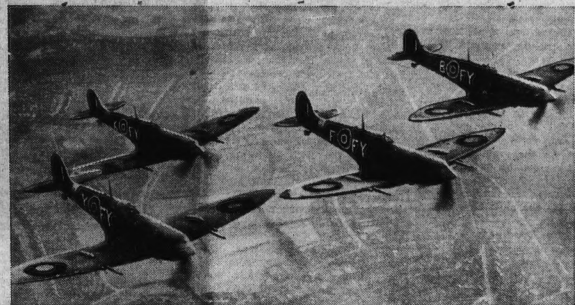

It is a good idea for people not to buy from peddlars they do not know and who are from out of town. That is a good way to get skinned.

The 3,000-room Stevens hotel in Chicago, now used by the United States army-air forces, will be offered for public sale on September 4th.

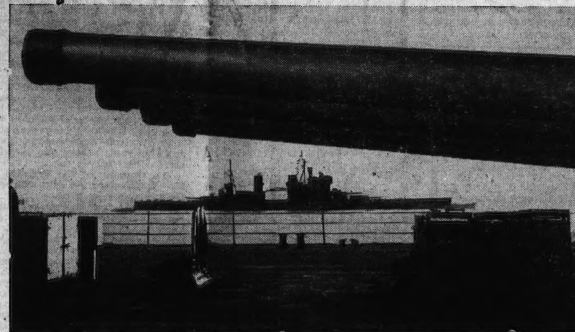

MEN LIKE THIS SAVED STALINGRAD

The unyielding determination of Stalingrad's defenders had its outcome in the Red Army's smashing victories against the strong enemy forces on this front. Outnumbered in the air, Soviet pilots gave unstinted support to the land forces, who for their part fiercely contested every inch of ground, forcing the enemy back yard by yard. Picture shows a young Soviet fighter pilot, L. Tolmachen. In combat with seven German planes, he brought down one Heinkel and damaged a Junkers 87. (USSR official photograph, distributed by the British Ministry of Information).

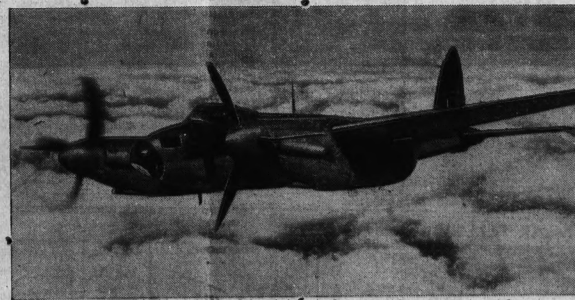

A NEW AND BETTER SPITFIRE FLIES FOR THE ROYAL AIR FORCE

A new Spitfire, a more modern version of the plane which played so magnificent a part in winning the Battle of Britain, is now in action with the RAF. It has a number of improvements, including a four-bladed propeller, and is capable of out-maneuvring and out-fighting the latest German fighter products.

"BIG GUNS" OF BRITAIN'S BATTLE FLEET

35,000-ton British battleship HMS King George V, viewed from beneath the 14-inch guns of a sister ship.

THE ROYAL AIR FORCE'S SUPER-SPEED "MOSQUITO" RECONNAISSANCE BOMBER CAN OUT-DISTANCE ENEMY FIGHTERS

The "Mosquito," twin-engine RAF reconnaissance bomber, one of the fastest aircraft of its type, has carried the daylight air war to Germany. Making long-range attacks without fighter escort, it can out-distance enemy interceptor fighters, as was instanced in a daylight raid on Oslo. It is a weapon which the enemy will find hard to combat. Of simple wooden construction, it has two Rolls Royce engines. Its offensive armament consists of four 20 mm. cannon and four 303 machine guns. Undercarriage and tail wheel units are retractable. It has the de Havilland three-bladed type propeller. Dimensions: span 64 feet 2 inches, length (overall) 40 feet 9 1/4 inches, height 15 feet 3 inches. Picture shows the de Havilland "Mosquito" RAF reconnaissance bomber in flight.

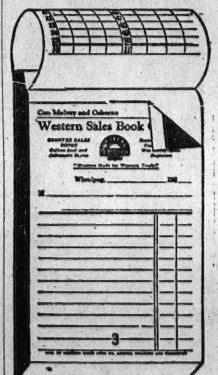

More than 130 acres of Romney (East Sussex) marshland, most of which has not been under the plough since the Napoleonic Wars, are today producing tons of grain, potatoes and sugar beet.

WORLD HAPPENINGS BRIEFLY TOLD

A scheme has been launched to grow more bananas, maize, tomatoes and other fruit vegetables in the rich alluvial soil of the Ono delta, Kenya.

Prime Minister Churchill in reply to a question told the Commons that women of the auxiliary services will go to Europe with the armies of occupation.

There are about 56,000 refugees from Germany and Austria in Britain, says the annual report of the Christian Council for Refugees from Germany and Central Europe.

As part of a long-term policy to make the British Homeguard the equivalent to front line infantry forces, they will be equipped with Bofors cannon and other field pieces.

Clement Attlee, Dominions Secretary, said that thanks to wartime-built airfields Canada can expect the rapid development of air transport to begin within a short time after the war's end.

The German news agency has announced the Gestapo has decreed that no one may cross Germany's inland frontiers without a pass. The journey must be necessary for the war effort.

Motoring in safety at 100 miles an hour along 3,000 miles of high-speed roads is envisaged in a report on the post-war development of highways by the British Institution of Highway Engineers.

British and Canadian troops in Sicily are paid in special British military authority sterling notes in the same way troops were paid in the initial stages of the North African campaign, it was revealed.

For The War Effort

Recent Reduction in Freight Rates Aids Salvage Collection in West. The reduced less-than-carload freight rates for shipment of war salvage materials in the four Western Provinces of Manitoba, Saskatchewan, Alberta and British Columbia which came into effect recently, will be welcomed by western Voluntary Salvage committees and should result in increased deliveries of necessary raw materials to Canadian war industries.

Salvage of all kinds is a vital cog in Canada's war equipment wheel. National Salvage Headquarters in Ottawa recently set out a "Salvage Priority List" which should be followed by all patriotic Canadians who are cleaning up the scrap in their own homes and seeing to it that it reaches the local voluntary scrap depot.

First in importance at the present time is the collection of fats and bones. As many Canadians know this is a war-duration drive, which will help produce vital glycerine for explosives and other materials for war industries. Canada needs 25,000,000 pounds of rendered fats a year from householders, hotels, restaurants and other establishments. The objective actually represents only about one ounce of fats per Canadian per week.

Ten thousand tons of old tires and tubes are urgently required by the end of the year.

Scrap metals of all kinds are needed, particularly the non-ferrous types, brass, bronze, and copper.

Rags for use in industrial plants to clean off machinery or to wrap delicate parts of munitions, or as wipers for the engines of planes used to train members of the Royal Canadian Air Force are on the "must" list. In this connection, cotton rags are the most important to salvage.

The salvage listed above is not the only type which should be collected, however. Any and every article has some use today, so get it out into the fight!

CITY OF RAGUSA

An oddity about the captured city of Ragusa is that its name is associated with one of Napoleon's marshals—Marmont. Napoleon made Marmont Duke of Ragusa. Later, when Napoleon made his last stand at Paris, Marmont made a secret convention with the enemy and withdrew his force of 20,000 men from its assigned position, making the name synonymous with betrayal for generations of Frenchmen.

Lord Louis Inspects Ship

Lord Louis Mountbatten, chief of combined operations, here inspects some of the ships and men that take troops into the field of action. The picture shows him having a few words with one of the ship's A.A. gunners.

How To Get A Raise

The Newspaper Worker Who Unconsciously Helped Himself

One morning when Sam Bennett was serving as acting city editor on a New York newspaper, a dispatch came in saying that Charles Schwab had just been made president of the Steel Trust at a salary of a million dollars a year. Bennett reduced the item to a single paragraph and stuck it on an inside page.

When the editor came down and discovered the item he nearly exploded. "Bennett," he shouted, "why didn't you spread this all over the front page?" Don't you know that a young man getting a salary of a million dollars a year is a great story?"

"Boss," replied Bennett, a little wearily, "after a salary gets over forty dollars a week I just don't know what to say about it."

That week Bennett got a raise—Christian Science Monitor.

HAD HIS REASONS

It was late at night; the taxi had pulled up by the curb and Macpherson got out and began fumbling in his pocket. At last he handed the driver a coin.

"I have known gent's what gives a bit over," grumbled the driver.

"Aye," said Macpherson. "That's why I asked ye to stop under a lamp."

SUNDAY SCHOOL LESSON

AUGUST 8

GOD SHOWS HIS PEOPLE THE WAY

Golden text: The Lord is my strength and song, and he is become my salvation. Exodus 15:2.

Lesson: Exodus 13-15. Devotional reading: Psalm 77:11-20.

Explanations and Comments. A Homeward Road to the Red Sea, Exodus 13:17-22. Moffatt's translation of the first two verses reads: Now when the Pharos let the people go, God did not lead them along the road to the land of the Philistines, although that lay close at hand, for God thought that perhaps the people might have regrets and return to Egypt, if they had to fight their way; so God led the people by a roundabout road in the direction of the desert toward the Red Sea.

It was only some two hundred miles from their starting place in Egypt to the border of Canaan where the Philistine dwelt, yet the Israelites were led the roundabout way and it was forty years before their descendants finally entered the Promised Land. That army of liberated slaves would have been at once overwhelmed by the Philistines, who in later years proved to be their most formidable enemies. They often defeated the Philistines but they never overcame them. Moreover, the roundabout way and the long years were necessary for their training, for they were a wholly undisciplined horde, unworthy to put up with difficulties and ready to return to slavery at every fresh testing-time.

Moses took the bones of Joseph with them as the patriarch had directed (Genesis 50:24-26). What greater proof than the presence with them of the mummy of Joseph in its sarcophagus could the people have had of their leader's faith in their eventual settlement in Canaan?

The Pursuit of Pharaoh's Forces and the Passage among the Israelites, Exodus 14:1-14.

The Crossing of the Red Sea and the Destruction of the Egyptians, Exodus 14:15-31. Moses had kept a bold front before the people, and had assured them of God's help. Then he evidently felt the need of a fresh assurance of God's presence with them, and he besought God's help. In response came rebuke as well as assurance: "Wherefore criest thou unto me? Speak unto the children of Israel, that they go forward." It was a time for action.

And Jehovah caused the sea to go back by a strong east wind all night and made the sea dry land, and the waters were divided. The children of Israel then crossed over on dry land, but when the Egyptians in pursuit, the waters returned and overwhelmed them.

BACK IN WAR
A Netherlands submarine which braved a Japanese force of three destroyers, two corvettes, two planes and one cruiser to torpedo a 14,000-ton tanker in the Java Sea more than a year ago arrived in Britain recently after an 18,000-mile voyage from the Netherlands East Indies by way of the United States. The submarine is back in the war—this time in the Atlantic.

The use of lemon juice by sailors in the British Navy was made obligatory as an anti-scurvy tonic in 1795.

War In The Air

Loss Of Bombers Compared To The Immense Damage They Cause

Bombing is an outstanding visible activity (how constantly we forget the invisible, indispensable activity of the Royal Navy), and Dr. Goshel has been comforting his countrymen with the assurance that our admitted losses are such that the raids cannot be maintained long on the present scale.

That would not be of much consequence if it were not that the question were not being sometimes asked here whether we can afford losses of 44 a night. On that it may be observed that 44 a night is a maximum. The total loss of bombers in raids on Germany in June was less than 800. That, of course, is not negligible. It means something in money, and over 2,000 brave and highly-trained men; but by no means all the men are casualties; many are unhurt and prisoners of war.

How trifling is such payment for the immense damage inflicted when compared, for example, with the slaughter of the Somme, which began on July 1, 1916, and resulted in the capture of a strip of territory 30 miles long and seven deep (other ultimate consequences must not be taken into account) at the cost of 410,000 British casualties.

How do losses of aircraft compare with the supply? It is being very conservative to assume an output from the factories of Britain, the United States and Canada alone of 6,000 a month, or twenty times our present losses. When all allowance is made for the fact that only a proportion of these are heavy bombers, that there are losses in combat in other theatres than Germany and losses from accident everywhere, and that much of the output must go to Russia and China and the Pacific theatre, it will be seen that the day when losses will restrict activity against Germany is far from even beginning to look like dawning—London Spectator.

Art Gallery Honor For C.W.A.C. Artist

L-OPEL MOLLY LAMB

The honour of having three of her drawings hung in the Toronto Art Gallery has been awarded to Lance Corporal Molly Lamb of the Canadian Women's Army Corps. These drawings depict scenes from the daily routine of a CWAC, and are drawn from Corp. Lamb's own experience in the Corps.

Daughter of Mrs. A. M. Williams of Galsino Island, B.C., 21-year-old Molly has been studying art most of her life. She is a graduate from the Vancouver School of Art, and has studied showings in London, England, and in San Francisco, U.S.A. Last year, Molly had a showing of fourteen canvases in the Vancouver Art Gallery.

Molly enlisted in the C.W.A.C. in November, 1942. She took her basic training at Vermilion, Alta., an N.C.O. course in St. Anne de Bellevue, Que., and a draughting course in Toronto, Ont. At the present time she is doing mechanical drawing with the C.W.A.C. in Ottawa.

HAS HIS OWN RECIPES

There are no cookbooks in the school Chief Petty Officer Edward Boswell runs for Royal Navy cooks-to-be. He is the savvy's oldest sea cook—he enlisted in 1905—and he has his own recipes. So the students study the preparation of such salty dishes as sea pie, babies' heads, Chinese wedding cake, bangers and North Sea pheasants.

Has Soldier Son

Lady Surprised Mrs. Roosevelt When She Gave Her Name

When Mrs. Roosevelt was over in England, she also visited Ireland. After she had spoken somewhere, an elderly lady came up to shake hands.

"I hope your sons who are serving," said the lady, "will all come home safely."

"Have you any relatives in the war," asked Mrs. Roosevelt.

"Yes," was the answer. "I have a son who is a soldier in the Middle East."

"May I ask your name?" said Mrs. Roosevelt as a gesture of courtesy.

"Montgomery," was the reply.

It was Lady Montgomery, the mother of the Eighth Army's commander—Financial Post.

LIFE'S LIKE THAT

BY GENE BYRNES

REG'LAR FELLERS—Don't Blab!

Salad-Crisp Cotton

By ANNE ADAMS

Easy-to-make, easy to iron is this frock. Anne Adams Pattern 4438 with its cool sleevelets. Shoulder yokes are in one piece with back panel and bodice front. The design invites the use of contrasting fabrics or colors... smart in one tone also.

Pattern 4438 is available only in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, and 40. Size 16 requires 2 1/2 yards 35-inch fabric and 1 1/2 yards contrast.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Minneapolis Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mail delivery of our patterns may take a few days longer than usual."

TO A POST OFFICE INKWELL

How many humble hearts have dipped in you, and scrawled their manuscript! Have shared their secrets, told their cares. Their curious and quaint affairs! Your pool of ink, your scratchy pen, Have moved the life of unborn men, And watched young people, breathing hard, Put Heaven on a postal card.

—Christopher Morley.

Secret Government documents in Great Britain are now not burned but shredded in machines, and the shreds are passed straight to the pulping mills to be used in making new paper.

THE HUMAN COMEDY

Adapted from the Metro-Goldwyn-Mayer Picture by BEATRICE CAMMER

CHAPTER TWO

The alarm clock rang at seven the next morning. Homer shut it off promptly then got out his body building outfit. He opened the book at lesson seven and went to work with his elastic stretcher.

Ulysses was awake. He sat up on his elbow, turned up his little freckled face. "Hey, going to be the strongest man in the world? Going to be a giant?"

"Naah!" Homer exercised rhythmically. "I'm gonna be a track man. I'm gonna run the two twenty low hurdles today and try to win."

"Why?"

"Because it's the big race of Thack High."

Ulysses nodded. That sounded reasonable. "All right, Homer, you run the twenty two, the twenty two, the twenty two."

He was still chanting the fascinating words as Miss Macaulay called them to breakfast. Homer's sister Bea was already at the table. So was Mary Anna, the eldest of the girls, the daughter of "home folks" who lived next door.

Homer didn't pay much attention to the girl's talk until they started that business of getting jobs and going to work. "What about getting a job?"

His mother laughed softly. "Why it's perfectly natural for a couple of girls to want to get out and flap their wings."

Homer stuffed some sausage in his mouth and frowned. "I thought I was going to do the work around here. I don't think Marcus would want the girls to..." He stopped indignantly. They were talking away attention to him, just whispering together. Huh! Silly girl talk. He jumped up and grabbed his cap. Couldn't be late to school today.

"Oh well. See you tonight when I get home, Ma."

The classroom was filled on the dot of nine. Homer brushed past Helen Elliott and smiled faintly as he put a newly cut rose on her desk. Then he went across the room to his seat and sat there, adoring her brunette beauty.

Miss Hicks started the day's session but Homer was off in his thoughts. A lot of things were bothering him. He knew he was in love with Helen. And he had that job. He was earning a living like a grown man. School didn't seem right now. It was for kids who didn't know about the world.

He stiffened suddenly. That Hubert Ackley. The big snob. He was whispering to Helen, trying to get in on him. And he had taken the rose and put it in his lapel.

One of the pupils was giving a long dissertation to the class on the conquering Assyrians.

Homer jumped to his feet and blurted out: "Ackley the Third? Who did he conquer or what did he do?" Ackley yawned like a jetted box. Homer yelled, "Sit down."

Ackley was fierce in return. "Well, at least no Ackley has been a common fanfaron, a hoodlum, a braggart, a..."

The class was charmed by the sensation of the two boys quarrelling. It all ended dramatically with Miss Hicks declaring that the boys would have to stay in after school. And everybody knew that they were rivals in the track meet that afternoon. It had all the elements of melodrama.

When the day dragged by somehow and only Homer and Ackley were left Miss Hicks said calmly, "I'm not keeping you in to punish you boys. I've been thinking here so that a better understanding will come out of all this."

Ackley snapped. "He had no right to talk about me like that."

Homer glared at him. "What's the matter with you? You seem to think you're better than the other boys. And trying to make Helen Elliott believe that too," he fumed.

Firmly Miss Hicks cut in. "You will both learn that every man in the world is better than someone else. In a democratic state every man is the equal of every other man up to the point of exertion and then every man is free to exert himself to do good or not, to grow nobly

or foolishly. I am eager for my boys and girls to exert themselves to do good and to grow nobly. I want you to understand that each of you will begin to be real men and truly human when, in spite of your differences with one another you still respect one another. That is what it means to be civilized."

A hush fell over the room after she had spoken.

It was then Mr. Blentin, the coach, strode in. Blentin was furious as he demanded that Miss Hicks release Ackley for the track meet. In his phrases he told her of Ackley's background, his fine up-bringing. It was all a little sickening to the well-to-do. She was seen good. "I'm giving you permission to leave with me. Come on."

Ackley sent a startled, sidelong look at Miss Hicks. Then he hurried out after the coach.

Homer stood there and did a slow burn. "Well, Miss Hicks, you saw that. Is that democratic? Is that being civilized?"

He didn't know it but Miss Hicks as noble as the words she preached was weeping in her heart. "It certainly isn't," she flared. She blew her nose. "And that Mr. Blentin doesn't know the first thing about sportsmanship." She was speaking almost to herself. "I've seen good men pushed aside by his kind... the kind who go through life, lying and cheating, toadying to those whom they think are their superiors and crowding out men who are above such treachery." Her eyes went straight to Homer. "The two twenty two, indeed. Huh! You go out on that field Homer Macaulay and go out to win."

Homer whistled. "Miss Hicks was so unexpected. 'Gee, I didn't know that teachers are human beings like anybody else.' It sounded so tepid compared to his feelings. He threw in for good measure. 'And better to be a snob.'"

Her smile was misty. "Homer when you leave this school, long after you have forgotten me I shall be waiting for you in the world."

He had turned and was off like a streak. "I'll be watching..."

At the athletic field the three fellows including Ackley were already in the lanes. The starter was looking at his watch, his pistol in readiness.

A low murmur went up from the spectators as they saw Homer. He was whistling and humming and he caught a glimpse of Blentin looking madder than a hornet. Then Ackley's hand and the lance he let out was made to Homer's ears.

"How did you get here?" he demanded.

"I was civilized," Homer retorted loftily.

"Haven't got a chance."

"Oh, a fortune teller," Homer chirped. His eyes were on the starter. "Well, confidentially I'm going to win."

"Who says so?"

"The starter's voice rang out. 'On your marks. Get set! There was the loud report of his pistol. The crowd and in that instant they all felt members in common as if they were members of one big cheering family.

Homer's running legs quaked. This wasn't just a race. It was the test of a strange urge of love he felt for funny looking Miss Hicks. And it was a way of proving that maybe a civilized man is the better man. And maybe it was to show Helen Elliott that she ought to concentrate on a champ like Homer Macaulay.

(The outcome of this race means a lot to Homer. He must make good for Miss Hicks and Helen. And he must prove to himself that the decent way is the winning way. Don't let Homer be a loser or victor in the next chapter.)

He didn't know it but Miss Hicks as noble as the words she preached was weeping in her heart. "It certainly isn't," she flared. She blew her nose. "And that Mr. Blentin doesn't know the first thing about sportsmanship." She was speaking almost to herself. "I've seen good men pushed aside by his kind... the kind who go through life, lying and cheating, toadying to those whom they think are their superiors and crowding out men who are above such treachery." Her eyes went straight to Homer. "The two twenty two, indeed. Huh! You go out on that field Homer Macaulay and go out to win."

Homer whistled. "Miss Hicks was so unexpected. 'Gee, I didn't know that teachers are human beings like anybody else.' It sounded so tepid compared to his feelings. He threw in for good measure. 'And better to be a snob.'"

Her smile was misty. "Homer when you leave this school, long after you have forgotten me I shall be waiting for you in the world."

He had turned and was off like a streak. "I'll be watching..."

"Who says so?"

"The starter's voice rang out. 'On your marks. Get set! There was the loud report of his pistol. The crowd and in that instant they all felt members in common as if they were members of one big cheering family.

Homer's running legs quaked. This wasn't just a race. It was the test of a strange urge of love he felt for funny looking Miss Hicks. And it was a way of proving that maybe a civilized man is the better man. And maybe it was to show Helen Elliott that she ought to concentrate on a champ like Homer Macaulay.

(The outcome of this race means a lot to Homer. He must make good for Miss Hicks and Helen. And he must prove to himself that the decent way is the winning way. Don't let Homer be a loser or victor in the next chapter.)

He didn't know it but Miss Hicks as noble as the words she preached was weeping in her heart. "It certainly isn't," she flared. She blew her nose. "And that Mr. Blentin doesn't know the first thing about sportsmanship." She was speaking almost to herself. "I've seen good men pushed aside by his kind... the kind who go through life, lying and cheating, toadying to those whom they think are their superiors and crowding out men who are above such treachery." Her eyes went straight to Homer. "The two twenty two, indeed. Huh! You go out on that field Homer Macaulay and go out to win."

Homer whistled. "Miss Hicks was so unexpected. 'Gee, I didn't know that teachers are human beings like anybody else.' It sounded so tepid compared to his feelings. He threw in for good measure. 'And better to be a snob.'"

Her smile was misty. "Homer when you leave this school, long after you have forgotten me I shall be waiting for you in the world."

He had turned and was off like a streak. "I'll be watching..."

At the athletic field the three fellows including Ackley were already in the lanes. The starter was looking at his watch, his pistol in readiness.

A low murmur went up from the spectators as they saw Homer. He was whistling and humming and he caught a glimpse of Blentin looking madder than a hornet. Then Ackley's hand and the lance he let out was made to Homer's ears.

"How did you get here?" he demanded.

"I was civilized," Homer retorted loftily.

"Haven't got a chance."

"Oh, a fortune teller," Homer chirped. His eyes were on the starter. "Well, confidentially I'm going to win."

"Who says so?"

"The starter's voice rang out. 'On your marks. Get set! There was the loud report of his pistol. The crowd and in that instant they all felt members in common as if they were members of one big cheering family.

"MY HAT'S OFF TO YOUR BREAD"

Brings you compliments on sweet, tasty bread

ALWAYS DEPENDABLE WRAPPED AIRTIGHT TO ENSURE POTENCY

Meat Roll-Up

Read makes a wonderful meat extender and has many uses other than stuffing. The individual meat Roll-up pictured above used bread to make a very little left over or fresh hamburger go a very long way.

The recipe is one that has been tested in the Consumer Section of the Department of Agriculture.

Meat Roll-Up

- 1 coupon—6 servings
- 1 tbsp. fat
- 2 tbsp. chopped onion
- 1 lb. hamburger
- 2 tbsp. chili sauce or ketchup
- Salt, pepper and seasonings to taste
- Reheated gravy or canned tomatoes to moisten
- Leaf fresh bread
- Saute onion in melted fat—add hamburger and cook, stirring well with a fork to keep meat separate. Add other ingredients, using just enough gravy or canned tomatoes to make the mixture easy to spread.
- Cut 6 thin slices lengthwise from the loaf of fresh bread; trim crusts.
- Spread each slice with meat mixture and roll. Brush rolls with melted dripping. Bake in a moderately hot oven, 375°, until golden brown and crisp, about 20 minutes.
- Serve with gravy or tomato juice.
- Leftover meat may be used instead of hamburger, omitting fat and mixing meat and other ingredients without cooking.

A Glorious Race

People Of Greece Have Fought On Against Terrible Odds

Beverly Baxter, in Maclean's, says: Greece! The story of a glorious race of people fighting in the streets, holding on to life though their hearts are so weak with hunger that the blood can hardly be pumped into their impoverished veins. When Italy had sent them an ultimatum France was prostrate and Britain stood alone against the powers of darkness. Yet Greece, steeped in the glory of her ancient history, said, "We shall fight."

And when Italy was threatened almost to a standstill Germany too sent an ultimatum and Greece said, "We fight on while one Greek can hold a sword."

Our own story is glorious enough but what tribute can words pay to a little nation which had no chance of victory but could only take the arrows into its breast.

Youth Organizations

The Mobilization Of The Youthful Population Will Help In Peacekeeping

For some time now, Britain's youth has been mobilized for war, and for the Peace that follows. At the beginning of the war, the Old Country was faced with a youthful population whose work had to be directed into the proper channels. Fathers were absent in the Armed Forces, and mothers were working in the munitions factories. Neither could properly look after their children.

Faced with this problem Britain, therefore, set up a Committee known as the National Youth Committee. Its object was to look into the welfare of all the young people who were between the ages of fourteen and eighteen.

The first step taken was to set up Youth Committee branches in every locality.

In the proposals for the Youth Corps it was suggested that the boys and girls should not be interfered with, or pushed, or directed, in the accepted "school" manner. Although the branches were to start up new activities and train leaders, the experienced people were to be given an opportunity to act for themselves.

In the southern country of Suffolk, an organization arose which was known as the Youth Service Corps. This organization was begun, and its activities directed by the boys and girls themselves. They helped the farmers to weed their gardens and with the harvest; they gardened in the towns for their employers, delivered parcels for shop owners whose delivery boys had been called up, collected salvage materials of all kinds, and did a hundred and one other odd jobs. They even minded babies.

This service caught the imagination of the boys and girls and spread like wildfire. Within a few months there were service squads, following the general pattern of the original Suffolk Youth Service Corps in every county.

This concerted work of Britain's youth has proved a boon particularly to the nation's farmers. In the harvest time this work has partially filled the gaps in farming. In other activities the boys and girls have done equally well. They have collected over 120 million dollars in war-savings in their School War Savings Groups.

No new youth organizations have been created in Canada during wartime but the old national societies, such as the Girl Guides, Boy Scouts, Y.M.C.A. and Y.W.C.A. are each doing fine work and helping in the picture of total war. Organizations such as the Junior Red Cross, St. John Ambulance Association and others are concentrating almost one hundred per cent. upon war efforts.

The Canadian Government is considering developing a similar scheme as the Youth Service Corps in England and recently a meeting was held in Ottawa chaired by Major-General L. R. LaFleche of the National War Service department to discuss harnessing the effort of youth between the ages of 11 and 18.

The Youth Services department of the War Time Information Board is currently making a survey of the activities indulged in by Canadian youth and leaders of youth groups across the Dominion are reporting their activities to this department.

Nature Steps In

Has Provided Canada With Two New Openings To Sea

Nature has turned the tables on the map-makers who drew the Canada-Alaska boundary on the Alaskan panhandle, and has provided Canada with two openings to salt water that were only discovered recently.

Under the Alaska boundary dispute, in which a British-American commission drew up a settlement, the boundary was surveyed on a line not closer than 10 miles to the sea. This cut Canada out of possible harbors in northern B.C. The Alaskan panhandle contains harbors like Skagway and Juneau.

Recent investigations of defence conditions in the B.C.-Alaska area have demonstrated that in two inlet glaciers have melted back beyond the Canadian frontier a few miles inland. Word of this discovery was brought back to Ottawa by the Ottawa joint defence board which recently inspected Alaska defence works.

GALLIFOLP HERBO

Mr. William Forshaw, the cigarette V.G. of Gallifolp, is dead at 58. He was the V.G. in 1914 when he held a Turkish trench at Suva Bay for 14 hours with a handful of men who with ammunition gone made bombs from jam tins, with cigarettes as fuses.

THIS BREAKFAST FOOD SO CRISP AND GOOD IS JUST THE WAY TO START THE DAY!

May Become Business

Raising Ships Likely To Become Larger Post-War Activity

The Normandie is shortly to be righted after more than a year on its side in New York's North River. In the Fifth of North, the British have lately completed a job of salvage on another ship which in its day was the largest afloat—the naval training craft, Caledonia, formerly the Majestic, of the Cunard-White Star fleet.

The account of its salvage is typical of stories, now not used or relegated to back pages to make room for tidings from the battle front, which in better times would command the fascinated attention of the world. The Majestic, a 56,600-ton ship went down several years ago in deep water after an outbreak of fire. Ordinarily it is a cargo which attracts the salvagers, but in this case it was 40,000 tons of precious steel needed for the war. The worker was put in charge of Capt. G. Bonner, holder of the Victoria Cross for heroism in the Qu'Appelle war on submarines in '17. Eighteen hundred tons, as well as hull openings, had to be sealed by divers before the great ship was pumped dry. This done, she was raised at the first attempt.

In the past, jewels and bullion and even ivory have been the loot. It may be that mining the sea and river bottoms for metal in the shape of sunken hulls will become a larger postwar activity. The Russians in the one year of 1936 raised 83 vessels among them a British sub, sunk off Kronstadt in 1919. With improved salvage methods and an abundance of victims of the present wars to be worked on, an enterprise essentially romantic even in its quest for prosaic steel may become a business.—Detroit News.

WANT CHANNEL TUNNEL

Directors of the 62-year-old English Channel Tunnel Company held their five-minute annual meeting in London and once more affirmed the aims of the company for a tunnel connecting France and England at the earliest opportunity.

DELICIOUS DESSERT MAKES THE MENU PERFECT

The fieldfare, a Norwegian thrush, is easily tamed after capture and specimens are kept as pets in many households.

Canada's Householders know that custards and blancmanges, quickly and easily made with pure, high quality Canada Corn Starch, are a delight with any luncheon or dinner menu.

At this time when Canadians are urged to "Eat Right to Feel Right", these delicious desserts will prove a welcome addition to the nutrition foods featured by the National Food for Fitness Campaign. Follow Canada's Food Rules for Health and Fitness.

HOME SERVICE

DON'T ALWAYS STUMBLE FOR THE RIGHT WORD

Often you hear expressions "run like a deer", "beet as a deer", "strong as a moose", "white as snow", and you realize how they add to the effectiveness of the person's speech.

Perhaps subconsciously these people cultivate their speech, but it is more likely that they have tried consciously to improve themselves and made their conversation more interesting.

It is not difficult to develop bright phrases. Instead of saying just plainly "straight" you might say "straight as an arrow"—it seems so much more vivid and explicit.

Learn how to combine adverbs and verb phrases such as "laugh uproariously" or "laugh silently." These help make your speech effective as do striking adjective-noun phrases, for example, "considerable ability" or "startling ability."

All these and many other examples are included in our 32-page booklet which shows you how phrases can be combined into phrases which are appropriate and effective.

Using the right phrases lend force and color to both speech and writing and helps you get ahead both socially and in business. Learn to express yourself.

Send 15c in coins for your copy of "Effective Phrases For All Occasions" to Home Service Dept., Winnipeg Newspaper Union, 176 McDermott Ave. E., Winnipeg, Man. Be sure to write plainly your name, address, and the name of booklet.

Tires on the rear wheels of automobiles wear out one-fifth faster than those in front.

When the day dragged by somehow and only Homer and Ackley were left Miss Hicks said calmly, "I'm not keeping you in to punish you boys. I've been thinking here so that a better understanding will come out of all this."

Ackley snapped. "He had no right to talk about me like that."

Homer glared at him. "What's the matter with you? You seem to think you're better than the other boys. And trying to make Helen Elliott believe that too," he fumed.

Firmly Miss Hicks cut in. "You will both learn that every man in the world is better than someone else. In a democratic state every man is the equal of every other man up to the point of exertion and then every man is free to exert himself to do good or not, to grow nobly

"MIDDLE-AGE" WOMEN (38-52) NEED THIS ADVICE!

If you're cross, nervous, irritable, suffer hot flashes, dizziness—caused by this period in your life—try Lydia E. Pinkham's Vegetable Compound. Made by a woman. Hundreds of thousands remarkably helped. Follow label directions. Made in Canada.

EXASPERATING MOMENTS

The merchant seaman was visiting at the home of a generous and patriotic woman who, despite her eagerness to help the war effort, wasn't too well versed about things. "And there I was on the aft deck," said the seaman, "when all of a sudden I saw a torpedo plunging straight for me!"

"My goodness," replied the hostess, cheerfully, "I do hope it was one of ours."—Tut-Bitts.

Scotland has two sheep to each person; Canada has almost four people to each sheep. 2597

Men, 30, 40, 50!**Want Normal Pop, Vim, Vigor?**

Try Orono Tonic Tablets, containing vitamins A, B, C, D, E, K, and iron, plus vitamin B₁₂, which is essential for normal metabolism. This tonic will give you the energy and vitality you need to get the most out of your life. It is a natural and safe remedy for all ailments. Write today for your free trial.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of MARGORIE MAY HOLMES, late of Bellevue, Alberta, widow, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Margorie May Holmes, who died on the 25th day of February, A.D. 1943, are required to file with the undersigned by the 15th day of September, 1943, a full statement duly verified of their claims and of any securities held by them, and that after that date the administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which has been brought to his knowledge.

Dated this 4th day of August, 1943.

S. G. BANNAN,
Solicitor for the Administrator,
Blairmore, Alberta.

CARD OF THANKS

The Russian Canadian Federation wish to thank all citizens of the Crow's Nest Pass, especially Coleman, who have donated clothing and cash to the Russian Relief Fund. We still appeal to the people to let us make this campaign successful.

Coinciding with the first anniversary of the opening of No. 2 Canadian Women's Army Corps basic training centre at Vermilion, Alberta, one hundred and two trainees graduated this week end after a month's fundamental training there. Of the graduates, 34 are from British Columbia, 25 from Manitoba, 10 from Alberta and two from Ontario. Three girls came from the United States to enlist at Military District 11. The girls have left for various postings throughout Canada. They include Connie M. T. J. Tedeschi, of Blairmore.

The travelling of the new Alaska highway will be completed by fall.

Rev. W. J. Huston has taken over the pastorate of Trinity United Church at Macleod.

Due to shortage of help and rationing, Claresholm restaurants are closing at 8 p.m. on week days and 10:30 p.m. on Saturdays.

The town of Hanna, Alberta, will celebrate its 35th anniversary on Wednesday next, August 11th, with a big field programme.

Dr. and Mrs. G. Blair Rose, of Claresholm, are holidaying at the Pacific coast, going by plane from Lethbridge.

According to the Lethbridge Herald, grave of W. J. Bartlett is to be decorated on Sunday next. Also the grave of C. E. F. Hiscoks.

Mr. and Mrs. E. F. Gare, of Trochu, visited old friends in Coleman during the week. Mr. Gare was a former publisher of the Coleman Journal.

Lin Sen, president of China, died Sunday evening after a long illness. General Chiang Kai-shek has been formally endorsed as Sen's successor.

Dr. Vincent P. Burke, of the Newfoundland education department, has been appointed to the executive council of adult education in the United States.

Carried from South America and carelessly thrown into the St. John's River in Florida, a few water hyacinths spread so rapidly that they menaced navigation.

Mr. Gerald Robertson, who is with the Canadian Pacific Air Lines at Quebec City, visited with friends in West Blairmore recently. Gerald now holds the rank of pilot officer.

Local and General Items

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Please items in to 11 or hand them in at The Enterprise office not later than Thursday evenings.

The Coleman Journal has recovered from a two weeks vacation.

Mrs. J. Wilson, junior, is on a holiday visit with her mother here, Mrs. M. Johnson.

Mr. and Mrs. D. A. Perry have returned to Strathmore from a holiday trip to the coast.

Miss Kerr, who is with the CWAC, spent the past week or so with her parents in West Blairmore.

Margaret Patterson, who is with the air force women's division, was a recent visitor with her parents here.

Students and faculties of the New York city schools in one year are said to have built 40,000 model airplanes for the navy.

Mrs. C. B. Harmer and her mother, Mrs. H. Bowell, of Calgary, are visiting at the home of Mr. and Mrs. J. B. Harmer here.

Miss Aileen Pizard, of the local Unemployment and Service office, is on her summer vacation, to be spent in Calgary and other points.

The new Alberta Workmen's Compensation Board consists of Dr. Victor Wallace Wright, chairman; Alfred Farnilo and Carl Cook.

CPR passenger engines were called into service pulling freight through The Pass this week. This apparently was in addition to their regular daily run on the Crow division.

According to British information service, nine out of ten unmarried women between the ages of 19 and 45 are today in the uniformed forces, munitions factories or essential war work.

The department of justice at Washington has announced the arrest of a man accused of teaching New Yorkers how to evade the draft by simulating deafness, mental incompetence and organic disorders.

A minister of the First Christian church fell from a fifth floor window of a Texas bank building, landing on the neck of a retired telephone lineman. Both were killed and both were 75 years of age.

Mr. and Mrs. James Lote on Saturday last moved into the F. M. Thompson house in West Blairmore, which is almost directly behind the Selective Service office, of which Mr. Lote is manager.

Miss Agnes McPhail has been made an MPP in Ontario. Gosh, she's swell, but may be skinny! She has been elected to the Ontario legislature, which has had no women members up to the present time.

F. J. Mead, an early member of the Royal Canadian Mounted Police force and one of the first to be stationed in this district, has been promoted to deputy commissioner, next to the highest position in the force. Mead came out from England and joined the force as a constable.

Found guilty of evading the selective service act, James V. Orlando, Detroit Red Wing hockey player, was sentenced to four years' imprisonment and a fine of \$2,000. He made false statements in an attempt to obtain deferment from United States army service.

A meeting of representatives of the Bellevue and District Horticultural and Industrial Society is to be held the early part of next week, when arrangements will be made for the holding of the 1943 show on Labor Day, September the 6th, or earlier. There is every prospect at present that this year's show should be the biggest and best ever. Coupled with the show will be the usual programme of children's sports and the big dance at night.

Fire losses at Fredericton, New Brunswick, during July, amounted to only \$10. Blairmore's were perhaps less than that.

Dr. Glasgow, who for some years has practiced medicine at Natal Michel, is now with the army medical corps at Camp Borden.

Sergeant Alfred Spencer Rhodes, RCAF, of Bellevue, is officially posted missing after six operations overseas. His wife resides in Lethbridge.

ONE OF BRITAIN'S "WRENS" CHECKS OVER A
FLEET AIR ARM AIRCRAFT

"Wrens"—British Women's Royal Naval Servicewomen—have taken over the various maintenance duties at ports and naval air stations. They are doing a great job. Much of the work is heavy, much of it requires specialized knowledge. Repairing and adjusting binoculars, overhauling air cameras, checking Fleet Air Arm planes on their return from operations, and gunnery maintenance work on board warships, are just a few of the tasks undertaken by these Maintenance Wrens. Picture shows a Wren checker in the cockpit of a Fleet Air Arm plane.

BRITISH NAVAL AIR GUNNERS AT HQ STATION
WAIT CALL TO ACTION

The British Royal Naval Air Station, "HMS Sparrowhawk," is the HQ of the biggest existing squadron to which catapult aircraft in British warships belong. These are mostly Walrus seaplanes, but the naval airman must be familiar with a dozen other varieties—Skuas, Rocas, Fulmars and Swordfish. Many Swordfish torpedo attacks have been launched against enemy ships, by RNVAs, usually about 22 years of age, who, however, are often veterans of many a daring attack on enemy craft. There is a constant flow of aircraft to and from the ship. Here the Fleet ships receive their aerial replacements, send their aircraft for repair, and exchange personnel. Picture shows air gunners seated on the nose of a "Walrus" aircraft.
